

Diatonic accordion making courses with Ewen d'Aviau : Registration form in english

Name and surname : Birth date :
 Adress : Post Code + Town :
 Phone : Email :

If you read this document, you might be interested in the process of building your own instrument. If you are looking for a way to take your mind off things, refocus yourself thanks to due to the complete attention needed for assembling an instrument in a friendly group, these workshop are for you.

Here is the framework by which I organize these instrument making courses :

- ▷ Open to all audiences, teenagers from 13 years old and adults. Underage must be accompanied by an adult guardian (parents, grandparents, family friends, etc.) for reasons of administration and personal integrity,
- ▷ The courses usually take place during the school holidays **May, in October**,
- ▷ The price of the course includes the work of preparing the instruments that I carry out before your arrival, the teaching costs and the raw material. The participants need to arrange their own accommodation and food but I can give you a list of people contact address for accommodation and food,
- ▷ The courses take place at my workshop in Saint-Nazaire (Postal code 44600), 20 minutes by foot from the **atlantic ocean** and 15 minutes by car from one of the most beautiful tourist sites in the region : the salt marshes of the Guérandaise peninsula. You have a day off in the middle of the course for sightseeing,
- ▷ In the event of cancellation, the deposits paid which correspond to the preparation work of your instruments cannot be reimbursed. You will have to move your visit to another session or alternatively find a person to replace you,
- ▷ Depending on the course themes and the people present, evening activities may be offered (dance, meditation, well being activities),
- ▷ These instruments making courses are accessible to all and consist of assembling work-pieces that I prepared before your arrival. These courses are not meant as education to become professional and if you want to be a manufacturer please let me know when you register. I also thank you for not copying those models without asking me first.

Workshop dates in 2026 (diatonic accordion):

- ▷ Diatonic accordion-making workshop priority for Francophone trainees : from **Wednesday 8h of April to Saturday 16th of April, 2026**
- ▷ Diatonic accordion making workshop priority for English-speaking interns : **Wednesday 14th of October to Saturday 23th of October, 2026**
